

Internet Payroll & Reporting

Corporate Payroll Services *Internet Payroll & Reporting* software is fast, secure and puts our clients in control of processing their payroll wherever and whenever they want. Our higher security, faster method of entering payroll over the Internet than browser based methods makes it easier for customers to manage their payroll while online.

Standard Internet browsers are slow waiting for each screen to load, but when using our *Internet Payroll & Reporting* software, much of that wait time is eliminated. In over 20 years of providing payroll services, our network has never been penetrated by any unwanted intrusions.

To learn more about Corporate Payroll Services' *Internet Payroll & Reporting* software, check out these Frequently Asked Questions:

- Q. Is CPS' *Internet Payroll & Reporting* software easy to use?**
A. We think so, but like anything else you have to learn some tricks to use it most efficiently. We provide training at no cost to help you learn how to best enter transactions for your payroll. We enter your first payroll with you on the phone until you're comfortable with what you're doing. After that if you have questions, we're just a phone call away.
- Q. Do I have to install anything on my computer?**
A. There is a very small, no-cost download that gets installed on your computer. It takes just a few minutes to set up. In return, processing your payroll is faster every time you input payroll. If your company has software download restrictions, please visit http://www.corpay.com/services/pc_payroll.html.
- Q. Do I have to have a certain version of Windows (XP, Vista, Windows 7, etc.) to make it work?**
A. Our software is compatible with all versions of Windows from XP forward.
- Q. Is it web based? Can I go to your web site to enter my payroll?**
A. It does use the Internet, but it does not use a web browser. There is a very small, no-cost download that gets installed on your computer. It takes just a few minutes to set up. In return, processing your payroll is faster every time you input payroll.

Frequently Asked Questions (continued):**

- Q. Why don't you just use Internet Explorer, Firefox, Safari or other similar browsers?**
A. We use what is called an "RDP connection" which is faster and provides an extra level of difficulty for hackers to get to your data.
- Q. Can I use it on my laptop?**
A. Yes. You can access our system from anywhere in the world you can get an Internet connection.
- Q. Can I use the application from my MAC?**
A. There is limited support for accessing our system from a MAC. It depends on the exact version you have. For MAC user specifications, please visit http://www.corpay.com/services/pc_payroll.html.
- Q. Can I use the application from my iPad?**
A. We are currently testing several applications that would allow that.
- Q. Can my employees go online and see their information?**
A. Not currently, but we have received requests for this functionality, and we are looking into providing it. However if your employees have direct deposit, then we can email them their check stubs.
- Q. Can you print W2s and quarterly reports from the online system?**
A. Not currently, but we have received similar requests, and we are looking into providing that.
